

### REMARKS

The present Preliminary Amendment is submitted to cancel original claims 1-12, add new claims 13-27, and to remove multiple claim dependencies, thereby placing such claims in condition for examination and reducing the required PTO filing fee.

Also, the specification and abstract have been revised in view of the IPER, and to add necessary headings. A substitute specification and abstract has been prepared. No new matter has been added. Also enclosed is a "a marked-up" copy of the original specification and abstract to show the changes that have been incorporated into the substitute specification and abstract. The enclosed copy is entitled "Version with Markings to Show Changes Made."

Finally, a proposed drawing correction to Fig. 1 is attached to add reference numerals that were described in the specification but not shown in the drawings.

Respectfully submitted,

Graham PERRET et al.
